

Some Models Relevant to Nature Healing

1. Branches of nature-based therapeutics (NBT) or nature healing as relates to Green Care Model, p84g 27

Green Care: A Conceptual Framework, by Joe Sempik, Rachel Hine, Deborah Wilcox, http://www.lboro.ac.uk/research/ccfr/growing_together/Green_Care-A_Conceptual_Framework.pdf
2. Overview of what Green Care can provide society. pg 22

Green Care: A Conceptual Framework, by Joe Sempik, Rachel Hine, Deborah Wilcox, http://www.lboro.ac.uk/research/ccfr/growing_together/Green_Care-A_Conceptual_Framework.pdf
3. Map of influence of nature, pg 28

Green Care: A Conceptual Framework, by Joe Sempik, Rachel Hine, Deborah Wilcox http://www.lboro.ac.uk/research/ccfr/growing_together/Green_Care-A_Conceptual_Framework.pdf
4. List of problems that nature healing can help you recover from and what you gain, pg 84

Green Care: A Conceptual Framework, by Joe Sempik, Rachel Hine, Deborah Wilcox http://www.lboro.ac.uk/research/ccfr/growing_together/Green_Care-A_Conceptual_Framework.pdf
5. Chart of what nature based therapy (NBT) research shows, Table 1

People and green spaces: Promoting public health and mental wellbeing through ecotherapy. http://www.ukmaburbanforum.co.uk/documents/papers/jpmh-6_3_burls.pdf
6. Settings that have been used for ecotherapy research, Pg. 23

The Healing Power of Nature: The need for nature for human health, development, and wellbeing. <http://norwegianjournaloffriluftsliv.com/doc/122010.pdf>

7. Outcomes measures that have been used in nature and wellbeing studies, Pg. 24
The Healing Power of Nature: The need for nature for human health, development, and wellbeing. <http://norwegianjournaloffriluftsliv.com/doc/122010.pdf>
8. Urie Bronfenbrenner's social ecology model for understanding the micro to macro levels that human beings experience.
Bronfenbrenner's Ecological Systems Theory as described in Bronfenbrenner's book, The Ecology of Human Development: Experiments by Nature and Design <http://pt3.nl.edu/paquetteryanwebquest.pdf>
9. Variety of funding sources of United Kingdom care farms
Care Farming in the UK: Context, Benefits, and Links with Therapeutic Communities, pg 251 <http://www.scie-socialcareonline.org.uk/profile.asp?guid=9fdbaa91-ee37-4fda-919d-0dd1c777592e>
10. Charts from self-esteem in Care Farming in UK, page 254 & 255, <http://www.scie-socialcareonline.org.uk/profile.asp?guid=9fdbaa91-ee37-4fda-919d-0dd1c777592e>
11. Paula Diane Relf's (University of Virginia) article on therapeutic agriculture with many useful models throughout
Theoretical Models for Research and Program Development in Agriculture and Health Care, <file:///localhost/https://www.agralin.nl/ojs/index.php/frontis/article/viewFile:1254:826>
12. Model Protocol for animal-assisted therapy, School of Veterinary Medicine, University of Tennessee
Human Animal Bond In Tennessee: Model Protocol for Animal-assisted Therapy and Visitation <http://www.vet.utk.edu/habit/program/protocol.php>
13. Glenn Albrecht's examination of solastalgia and soliphilia, the importance of place, environment, home to your sense of identity
<http://healthearth.blogspot.com/2009/02/soliphilia.html>
14. For the beneficial aspects of nature in cities, a literature review is provided by the TKF Foundation (now called Sacred Nature)
<http://www.opensacred.org/research/literature-review>
15. Providing a framework for the physical and mental benefits of green exercise in the United Kingdom, pg 15
http://www.essex.ac.uk/ces/occasionalpapers/Kerry/CRN_Report_FINAL_Feb14.pdf
